

SPEECH SCREEN REPORT

DEAR PARENT(S)/GUARDIAN(S):

A speech and language pathologist (SLP) recently conducted speech screens at your child's school. This report outlines your child's results and provides guidance on steps you can take to further support your child's speech development.

SPEECH SCREEN REPORT:

Student's Name: {{student_name}}

Grade: {{grade}}

Date of Screening: {{date_of_screening}}

ERROR SOUND	ERROR PATTERN EXHIBITED	EXAMPLE
{%tr for error in errors %}		
{{ error.sound }}	{{ error.pattern }}	{{ error.example }}
{%tr endfor %}		

DEVELOPMENTAL SPEECH SOUND CHART:

This chart provides a general guideline for when children typically develop and master specific speech sounds. It's important to start practicing these sounds before the age of expected mastery to proactively address any potential speech difficulties.

AGE RANGE	DEVELOPING SOUNDS	EXPECTED MASTERY
2-3 years	p, b, m, n, d	By 3 years
3-4 years	t, k, g, f, v	By 4 years
4-5 years	l, sh, ch	By 5 years
5-6 years	j, r, zh	By 6 years
6-7 years	s, z, th (voiced)	By 7 years
7+ years	th (voiceless)	By 8 years

Remember, every child is unique in their development. The above chart serves as a general guide.

SCHOOL SPEECH PROGRAM

Your child is welcome to participate in the *Northern Voices Speech Services* (NVSS) program at the school to assist them with their speech development. This is an important step towards enhancing your child's communication abilities. Early intervention is key to improving speech outcomes, and our team is dedicated to supporting your child's progress!

Many people know that speech sound disorders can affect a child's ability to be understood by others, but what they might not realize are the long-term consequences that can occur when they are left untreated. Communication difficulties can profoundly impact social behaviour, self-esteem, relationships, literacy, learning, and overall academic performance. In fact, the ability to communicate effectively is the very foundation of a child's overall development and academic achievement, and early intervention is crucial! The earlier support can be provided, the better the outcome.

Students involved in the NVSS school speech program will participate in one-on-one sessions with an Educational Assistant who has received extensive training to help children enhance their speech. Sessions will follow an individualized therapy program developed by the Speech Language Pathologist.

INFORMED CONSENT

PARTICIPATING IN THE SCHOOL SPEECH PROGRAM

Student: _____

School: _____

DEAR PARENT(S) / GUARDIANS(S):

Your child is eligible to receive speech services through the **Northern Voices Speech Services** School Program at school. If you agree to your child receiving these services, please sign below.

SPEECH SCREEN RESULTS | The results of a recent speech screen administered at the school indicated that your child demonstrated some difficulties with certain speech sounds and may benefit from targeted practice with a trained adult. Please see the attached report for details outlining specific speech errors identified.

PROGRAM | The speech program is designed to provide opportunities for your child to practice their speech sounds to help them strengthen their communication skills. Improvements in speech may also support growth in literacy and academic learning, while also encouraging confidence and positive social interactions.

Students involved in the Northern Voices Speech Program will participate in one-on-one speech practice sessions ran by a trained Educational Assistant (working under the guidance of the contracted speech-language pathologist). Frequency of sessions will depend on severity of speech difficulties. Your child's student plan would be developed by the Speech Therapist, and tailored to your child's speech screen results.

You may request a copy of your child's speech practice plan or progress updates at any time. Any personal information collected is kept confidential and will only be shared with those directly involved in your child's educational program, in line with privacy legislation and professional standards of practice. Participation in the program is voluntary, and you may withdraw your consent at any time by notifying the school.

CONSENT

I have read the information above and understand the purpose and process of the NVSS school speech program:

☐ I consent to my child participating in the NVSS school speech program.

Parent/Caregiver Name

NVSS TEACHSPEECH APP

NVSS TeachSpeech App – Free for One Year!

We are excited to give you **one year of free access** to the **NVSS TeachSpeech app**. This app was created to support your child's speech practice at home with activities that build skills and confidence.

What You'll Find in the App

- Expert-designed videos that show you how to support your child's speech development
- Clear step-by-step resources for practicing speech sounds
- Engaging games that make practice enjoyable
- Printable activities to practice speech away from screens

How to Get Started:

1. Download NVSS TeachSpeech from the App Store or Google Play or by scanning the QR code below.

2. Create an account.
3. Enter your exclusive access code: **{{ code }}**
4. Add any sound errors listed in your child's speech screen report.
5. Explore the games, videos, and Language Library — and start practicing together!

A Helpful Tip

Try making speech practice part of your daily routine — before school, after supper, or right before bed. Just a few minutes each day can create meaningful progress!

Your support is the key to your child's success, and we're here to support you every step of the way!
