

FREE ACCESS: SPEECH THERAPY APP

TeachSpeech is an easy-to-use app designed to help parents, teachers, and educational assistants support children with speech sound disorders.

Created by Speech-Language Pathologists, the app provides step-by-step guidance, engaging practice activities, and tools that make speech practice effective, accessible, and fun.

INSIDE THE APP

- ✓ Training videos and practical strategies
- ✓ Interactive speech games and activities
- ✓ Visual demonstrations of speech sounds
- ✓ Printable resources for home and school
- ✓ Language learning and cultural resources

Whether you're supporting a child at home, in the classroom, or during speech practice sessions, TeachSpeech gives you the confidence and resources to help them succeed.

**HELPING CHILDREN FIND THEIR VOICE
ONE SOUND AT A TIME.**
